10 CENTS PER WEEK.

IS NOW MURDER

George Gray Dies From His Wounds on North 9th.

He Succumbed Yesterday Afternoon Late After Lying Several Days.

THE MURDERER NOT CAPTURED

George Gray, colored, who was shot by "Spot" Polk near Bennett's saloon at Ninth and Boyd streets Dec. 30th about 11 a. m. died at 5 o'clock yesterday afternoon at his home, 943 North Ninth street, from his injuries.

The shooting created no little excitement, and reports differ as to the cause. One version is that Gray had been telling Polk's wife about the latter's conduct, and Polk went to the saloon to settle with him. He followed Gray outside and began shooting at him at close range, only one shot was fatal. This lodged in Gray's lungs, the other two being merely flesh wounds.

Another version is that Polk and Gray fell out over a game of cards, and that this caused the shooting.

Polk escaped, and has not been seen since. Gray had been in a precarious condition for several days. He was about 20 years old, and unmarried.

Lonnie Fuqua, colored, is alleged to have been an accomplice in the shooting of Gray, and was arrested several days ago. He was presented in police court on a warrant for malicious shooting this morning, and on motion the warrant was dismissed and one will be substituted charging him with complicity in the murder of Gray.

The case was continued, and as the evidence was not heard, it is not known how he was implicated.

It has not yet been decided when to bury the remains.

The police have redoubled their efforts to apprehend Polk.

CONGRESS AGAIN.

Both Houses Reconvened This Morning at Washington.

The Canal Bill the First Thing Taken Up By Congress.

Washington, Jan. 6.—After a recess of almost three weeks, both houses of Congress reconvened today. The principal item on the House program for the week is the Hepburn Isthmian canal bill, which is the special order for Tuesday. No limit has been fixed as to the time for debate upon the measure, but Mr. Hepburn does not contemplate a prolonged discussion of it. It is surmised in some quarters, however, that the proposition of the Panama Canal company to sell its property and franchises for \$40,000,000 may have the effect of opening a wider field of discussion than it first seemed probable, and it is thought should prove to be the case, the bill may be before the House for a longer time than is now contemplated.

Mr. Burton has given notice of a speech on the bill, and it is understood that there will be other speeches in criticism of special features, but its friends are very sanguine, not only that the bill will pass, but that it will pass speedily. Mr. Hepburn, the author of the bill, thinks that only a few days of debate will be necessary.

DUCK HUNTERS LEAVE.

PADUCAH YOUNG MEN WILL FLOAT DOWN FROM EVANSVILLE.

Mr. Martin Vogt and W. W. Marsh, the latter of Sycamore, Ill., left on the packet this morning for Evansville. When they reach that place they will begin a several days' duck hunt on a boat, starting at Evansville and ending down in a boat. They have a stove and cooking utensils and are prepared for the trip. They expect to bag a good supply of game and will be on the river several days.

INVESTIGATING

COMMITTEE OF BOONEVILLE COUNCIL INTERVIEW BUSINESS MEN ON DUAL TELEPHONE SYSTEM.

A committee of the Booneville, Ind., council, composed of L. A. Polson and Lewis Gardner, accompanied by C. M. Katterjohn, manager of the Cumberland Telephone company at that place, were in the city yesterday interviewing business men as to the operation of the dual telephone system. A proposition has lately been made by a company of promoters to establish an opposition plant at Booneville, and an effort was made to interest local capital in the project, and thereby secure a franchise from the city council. The citizens, however, who are already receiving excellent service from the Cumberland Telephone company, decided it would be well to make some investigation before any contracts were made for another telephone system. After circulating among the business men, the committee was unanimous in the opinion that two telephone systems were not wanted in Booneville. One member, in expressing himself, said: "We were told by every business man interviewed that the service now costs almost twice as much as when only one company occupied the field in Henderson, and that the service had not increased in efficiency, that two telephones were a nuisance and that the most satisfactory service could only be given by a company occupying the field exclusively. Experience has demonstrated that business cannot be conducted extensively without utilizing the elaborate long distance system of the old companies, and of course we must protect the interests of our business men."—Henderson Gleaner.

The Farrow boy is the son of Officer Farrow, and claims that he met the Duncan boy at Ninth and Clark streets, and got into the buggy at his invitation. When Officer Thad Terrell saw the two in the buggy he gave chase, and the Duncan boy made good his escape. The other youngster, however, remained in the buggy and was arrested.

OUR LOSSES.

There Was a Decrease in Loss By Fire Last Year.

Deputy C. C. Rose's Report is Ready to Send in—Official Figures.

The annual report of Stamp Deputy C. C. Rose, of the Kentucky and Tennessee Board of Fire Underwriters, shows that the total amount of premiums collected by companies doing business here during the year was \$95,000, an increase of \$17,000 over the previous year. The losses were \$80,000, a decrease of \$30,000. The opera house loss in 1900 is what made the loss of that year so large.

The fires last year, however, entailed a greater loss than \$80,000 as this is the amount of insurance paid out, and the loss is often greater than the insurance. Furthermore no entry is made of the loss of the Illinois Central planing mill, which was insured in the company's own fund. The largest fire during the year was that of the knitting mill, the loss on which was \$32,000.

The companies that withdrew during the year were: Agricultural, Delaware, American Fire of New York, Lancashire of London and the Pacific, Caladonia, Magberg, Royal Exchange, Sun of England, Scottish Union, and National and Tontonia of New Orleans. The Caladonia reinsured her interests in the Phoenix of New York. Magberg re-insured in the Aetna, Scottish Union and National reinsured in the London and Lancashire, while the Magberg and Tontonia allowed their business to remain upon the books and drop policies as they expire.

The two questions that are to be agitated by the board of underwriters this year are of having appointed here a vice inspector and in the state of a fire marshal, whose duty it will be to investigate all fires in the state, and send dishonest men to the penitentiary whenever they are exposed.

THE HEALTH BOARD.

President J. D. Robertson will endeavor to hold a meeting of the Board of Health this week to reorganize and attend to some important matters. He will issue a call shortly.

Mrs. Lawless was 22 years of age, and was burned while carrying a lamp that had been setting on a hot stove, the lamp bursting and scattering burning oil over her. Last Sunday she gave birth to a child that was dead, and had since been kept alive by opiates. Her husband, who is a railroad man, is still disabled from the burns he received on both hands.

Both parties were baling hay on the farm of Arch Mason, a wealthy planter, and the boy handed Hammond the gun to shoot at some object when the gun went off and tore away his right thigh. LIQUID AIR.

Chicago Concern Wants to Give a Scientific Exhibition Here.

Asks a Guarantee From the School People—School Notes.

Prof. C. A. Norval of the High School is in correspondence with a Chicago firm that desires to give a big liquid air performance or demonstration in Paducah at the earliest date convenient.

Prof. Norval has talked the matter over with several of the teachers and other persons, and has decided that the entertainment will be a good drawing card, as this will be the first demonstration of liquid air ever given in this end of the state. Louisville is the nearest city to Paducah where a liquid air entertainment has been given, and the auditorium where it was given was packed to its fullest capacity. If the proper inducements can be offered the firm, then the entertainment will be secured and the date fixed immediately. The proceeds of the door receipts will go to the library fund to replenish the library.

Steele and other metals will be burned with the air and other marvelous things done. The entertainment will be one well worth seeing.

This morning there was little absence in the Washington building, as all the scarlet fever districts that affected the school in particular have been cleared of the disease. The holiday confusion has about been done away with, and the pupils have once again settled down to hard study.

ASKS DIVORCE.

DAVID CARROLL SUES HIS WIFE ALLEGING INFIDELITY.

He states that they have not lived together in eight years and gives these grounds for the action.

THE CITY COUNCIL

A Regular Session to Be Held This Evening.

A Number of Important Matters Will Be Discussed By the Members.

NEW ORDINANCES TO COME UP

The city council holds its regular meeting tonight, and several matters of importance will come up.

Mr. T. W. Baird will be re-elected city weigher, and Mr. Jas. O'Brien city printer as they by an oversight failed to qualify within the prescribed thirty days.

The request for the sale of a telephone franchise will come up for action.

Tax Collector Kraus will report the collection of \$1,826.87 since last report.

The proposition of Mr. Charles Robertson, to give the city a large rebate for the office of lockup keeper for four years will probably be made. It is understood that there is no way the place could be guaranteed for more than one year.

The ordinance providing for the transfer of Paducah from the third to the second class will come up for final passage.

The appointment of Mr. Wm. Porteous sexton of Oak Grove by the cemetery committee will be ratified.

The ordinance raising the compensation of lockup keeper from 15 to 20 cents per meal will come up for second passage. Mayor Yeiser has signified his objection to it, and should it pass would probably veto it, although he is quoted as saying that "much influence has been brought to bear on him to sign it."

POLICE MUM.

THERE ARE TWO CASES TODAY ON WHICH THE POLICE SAY NOTHING.

The police are at work on two cases that they will not give out until they get into the courts. One is a rather sensational affair, in which a man accused another of being too familiar with his wife, and swore out a felony warrant against him.

The other is of an employee of a local cigar house getting away with about \$800 of the firm's money. He had been with the company about three years, and has not been heard of for about a week.

DAILY THOUGHT.
"He who can be glad at another's success, though he himself has failed, is a victor."

ONLY FOR PROTECTION.

The Sun believes in a newspaper, as well as a public body like the city council, taking a common sense view of a thing. Competition is generally good for everybody, except the competitors, but there is no prospect of telephone competition in Paducah. This might as well be realized now, before the council has spent fifty or a hundred dollars advertising a telephone franchise that will probably bring \$25, the amount that two other franchises brought when sold within the past few years, and some of our citizens have been induced to sink their money into an enterprise that promises much from the seductive vapors of professional promoters, but will never fulfill any of the rich claims made for it. Twice within the last several years have telephone franchises been sold in Paducah, and bought by persons desiring only to speculate, and neither time has the city secured the supposed much needed additional telephone facilities. It is reasonable to presume that if another were sold now, it would be the same way, for any man experienced in the telephone business knows that two systems in Paducah could not pay, and would not give the public satisfaction, and that there is not the remotest possibility of the present corporation being driven out.

It is often the case that promoters strike a city where there is a prospect of making a haul, get a franchise, associate with themselves men of money from a distance and organize a company. Citizens are induced to take stock, and after the concern gets all the money together, it proceeds to buy material, which eats up all the available capital. It then turns out that the promoter represented some manufacturing house, and has sold his goods to the company. All the capital has been eaten up, and has found its way to the manufacturing concern, the members of which happen to be the foreign stockholders. The local stockholders have the franchise and the material, and the promoter and his outside associates, who have all the capital and some of the stock, then do not care what becomes of the new organization, and it is forced to do business in competition with a strongly entrenched rival, that forces it to run at a big loss or quit the business. The lesson is plain. There are some people here who have already had experience with promoters. There are other who should beware.

The Sun predicts that although a telephone franchise may be sold by the council, no other system will be built, and that even if a new system should be built, those who unload their spare cash into it will lose it all, and we will still be where we are now, and have been all the time—in the grasp of a monopoly. The only arguments The Sun has attempted to offer are that there is no sincerity in the professed desire to build another telephone line here, and if one is built, it will be a scheme to make money for some promoter or manufacturing concern with wares to unload on the market. The losers are always good business men of a city.

LET'S HAVE A SHOW DOWN.

The efforts of the present city administration to find out something about the financial condition of the city are very commendable. It is only right that the taxpayers should know exactly where we stand, and that the new city officials, in taking the reins of office, should know exactly how much of the various levies has been spent, and how much there will be on hand. The deficit, if there is one, must be overcome in some way either by retrenchment or an increase in the tax rate, or by a little of both. The present administration can not in justice to itself go ahead and try to work out its salvation on what has been let it without first having acquainted themselves, and acquainting the people, with the conditions that prevail. Mayors and councilmen are only human, and it is natural for them to want their constituents to know what they are doing, unless it's something bad. They can't go it and get full credit for their work unless the public is apprised of what they

have to contend with. The whole trouble seems to be that too much money has been wasted. Every year the finance committee of the council submits a list of the appropriations necessary to run the respective departments, or for other purposes, and this is embodied in an ordinance and constitutes the tax levy. The council is supposed to spend the amount levied for certain purposes only for those purposes, but it does not always do it. It seems that more money, in some instances, has already been spent for certain purposes than was levied; and there are five or six months longer to run. Not only this, but it is claimed that there should be nearly \$14,000 in the treasury, appropriated for the interest on repudiated bonds, should the courts decide against the city. There should be \$8,000 or thereabouts in the treasury to pay off the judgment that City Clerk Patterson will probably get against the city, which has been kind enough to not only pay him for a very good job of work, but employ him besides at a good salary. There is two thousand dollars or more that should be in the sinking fund. All of this money ought to be in the treasury at the end of the year, unless the suits are decided before that time. It is said, however, that it has all been spent, and that when the receipts from all possible sources are in, and the remainder of the money necessary to pay salaries and other expenses is accounted for, there will be a deficit of \$60,000 or more. This may be a mistake. If it is, it is the duty of the present council to disburse the minds of the people by publishing a correct statement of the city's financial condition. It is understood that this will be done. It is reasonable to presume that it will, for the city clerk has been at work on the books for some time, and a report has been asked by some of the members of the council.

After we get an itemized account of what it has been spent for, then the money they understand where all the money they have been paying for taxes has gone.

The city council, in addition to raising all the salaries except that of the poor looker keeper, who will get jumped on with both feet when the ordinance increasing his pay is presented for final passage tonight, is so energetically spending or planning to spend money, one would not think that there is a large sized deficit in the city treasury this year. It has authorized the city clerk to "correct" the city's books, for which he is to receive special pay. It would have been a good idea for the city council to have employed some competent bookkeeper to find out if anything were the matter with the books before employing anyone to "correct" them. The city council might have taken the pains to find out if the statement that the books were muddled up were true, if only in justice to the retiring clerk. Of course we all know that no one can keep books quite as well as the present highly efficient city clerk, but then everybody makes mistakes, and perhaps the clerk made one when he said the books of his predecessor were wrong. At any rate, when he brings in his bill, somebody ought to be allowed to see what he has done to earn it.

It may be the duty of the city council to give the people the benefit of competition, and it is true that the council is not the guardian of prospective investors, but it is equally as true that it is within the province of a newspaper to protect citizens from professional schemers. City councilmen are not always the wisest men on earth. The last city council, with no less than half a dozen contractors in it, let a man who had never made a contract in his life before skin them to death on a job that it afterwards refused to pay all it agreed to pay for, because it was such a botch. The city will eventually have to pay the \$7,000 balance, and all because its councilmen didn't know enough to protect it in making the contract. Don't expect every councilman to be a smart man.

The general public is not taking any stock in the gauzy yarn from Murray that Nathan Stubblefield has discovered how to telephone without wires. If he has probably used a megaphone. Nathan is the wonderful genius who a few years ago worked the newspapers for a great deal of notoriety on account of his alleged discovery of perpetual motion. Nathan's remarkable achievements are interesting to read about, but they exist only on paper.

Mayor Yeiser was some time ago quoted in the Democratic papers as saying that he considered 20 cents a meal too much to pay for feeding prisoners in the lockup and now quoted as declaring that much influence has been brought to bear on him to sign the ordinance making the increase. It will be interesting to see which he does—what he thinks ought to be done, or what those "influencers" want done.

Hon. Ollie M. James, of Marion, has formally announced his candidacy for congress to succeed Congressman Chas. K. Wheeler, subject to the action of the democratic party. He is the first to announce if size and nose are to be factors in the race, he ought to win the nomination over all comers.

The British war office has recommended that false teeth be furnished the soldiers. Reports fail to state whether the soldiers had their molars knocked out by the Boers, or wore them away on the hard test furnished

in their rations. Senator Hanna was too strong for his opponents. He is invincible.

The town crier and the chronic spitter must go.

ECHO OF THE SCHLEY CASE.

A great many people who have read about the Schley case do not know that the Admiral ever did anything but lick the whole Spanish navy. They have read the biased papers so much that they really think he has been a persecuted man, and has been hounded by men who were jealous of him and his work. To those familiar with the facts in the case, nothing could be more ridiculous. The latter know that it is politics that has caused all the trouble over Schley. The people who have befriended the Admiral are the kind who are for a man, right or wrong, and when they take a side they take it, if necessary, in defiance of right, reason and everything else. They are willing to besmirch the character of every naval officer to vindicate Schley. A New York man has prepared the following list, showing what the court of inquiry found to be true, and on what it based its opinion, censuring Admiral Schley. It is:

1. That he went to the scene of the probable conflict like a boy goes to school who has no love for his lessons.
2. That when before Cienfuegos he made no effort to find the enemy.
3. That when ordered to Santiago he obeyed again in the same sluggish manner, just as though he had no taste for the business in which he was engaged.
4. That he turned his back on the enemy when twenty miles from them, and made for a home port.
5. That as an excuse for this retreat or turning, he made a statement which did not accord with the facts in the case.
6. That when the Colon lay in the mouth of the harbor, he showed reluctance in coming into fighting proximity to her.
7. The order of the vessels taking part in the battle of Santiago and the course to be pursued in the event of the Spanish ships trying to break through were given by Admiral Sampson.
8. That this order and this course or method of fighting was followed by all the captains except Schley's.
9. That this was effective in the destruction of the enemy's vessels before they had time to escape, except in the instance of two of their fleet.
10. That Admiral Schley gave no orders to disturb the previously arranged order of battle, planned by Admiral Sampson.
11. That, having given no orders, or done anything more than the other subordinate officers in the squadron, he is entitled to no more of the credit than they.
12. That Admiral Schley showed the same reluctance to come into dangerous proximity to the Spaniards in the battle of Santiago that he had shown in the earlier stages of the campaign.
13. That the fact that the Brooklyn bore the marks of shooting on the part of the Spaniards, and was the only ship on which a man was killed, is no proof whatever that her shots were the most effective in disposing of the Spaniards.
14. That it is a matter of sincere regret that many of our people are willing to sully the honor of a majority of the navy's officers and the navy department of this country by ascribing base motives to them in their treatment of Schley.

KENTUCKY EDITORS.

THEY WILL SEEK DESIRED LEGISLATION AT FRANKFORT.

The Kentucky press is after a needed legislation and will have a delegation at Frankfort to look after its interest.

President Harry McCarty, of Nicholasville, has appointed the special committee to look after the work as follows:
Hon. John H. Westover, Williams-town, Chairman; Hon. Wm. Henry Jones, of Glasgow; Chas. M. Meacham, of Hopkinsville; Chas. M. Lewis, of Shelbyville; J. M. Allen, of Cynthiana; E. W. Lillard, of Danville. All these gentlemen have signified in advance that they will accept and serve.

The purposes for which the committee is organized is to secure the passage of a legal advertising law, to amend the libel laws, and to urge an adequate appropriation for creditable representation of Kentucky at the Louisiana Purchase Exposition next year.

THE SCHOOL BOARD.

NO MEETING WILL BE HELD TOMORROW NIGHT.

The regular meeting of the school board is on the first Tuesday in each month, but this does not hold good in January, as the board always holds two meetings in December, the last before Christmas, to allow salaries, and at which all the business that would be transacted in January is transacted.

President Locke stated this morning that no meeting would be held tomorrow night unless the members request a called one.

Try Dr. Jennelle's tooth powder. It is warranted to be the best offered to the public.

TIM MURPHY

AT THE KENTUCKY THURSDAY NIGHT.

Tim Murphy, in his new play by Paul Wiltach, "A Capital Comedy," will be the attraction at The Kentucky next Wednesday night. It is an interesting story, and so carefully worked out that the ever changing lights of comedy and darker shades of pathos flash constantly across the scene and hold the audience charmed and expectant to the very last, and Joel Gay (Mr. Murphy) has a part that will bring him many strides forward as a star.

DISCOVERED IN TIME.

DANGEROUS BLAZE EXTINGUISHED AT MR. WM. KARNES.

Yesterday morning Mr. Herman Karnes, son of the well known contractor, of North Seventh street, went up stairs into the sitting room and found it full of smoke and fire. A large upholstered chair had caught fire from a spark from the grate, and was blazing to the ceiling when he arrived. He threw it chair out the window and then put the blaze out in the room. No damage was done except from the smoke to the walls, and a small hole in the carpet. Had the fire been undiscovered five minutes longer the house would probably have been burned.

THE BERNHEIMS COMPLIMENTED.

A recent issue of the Philadelphia Times contains a page article on the Jefferson statue, presented to the city of Louisville by Messrs. I. W. and B. Bernheim, gentlemen who formerly resided in Paducah. There is highly complimentary reference to the public spirit which prompted the handsome gift. The article is profusely illustrated, including portraits of the Messrs. Bernheim.

REFORM SCHOOL FULL.

County Judge Emery was requested Saturday evening to have two young daughters of Frank Hay, the barber, sent to the reform school, but after wiring the superintendent of that institution he learned that there is no room for them. The children were recently in the Home of the Friendless, and are said to be so unruly that nothing can be done with them. Their grandmother, who is keeping them, made complaint.

CHILD BURNED TO DEATH.

The four-months-old child of Sam Wilkins, colored, residing on Norton street between Ninth and Tenth was left in a chair in front of the fire Saturday afternoon and a live coal ignited its clothing burning the child to a crisp. The funeral took place yesterday.

The governor's message has been prepared for publication, and contains about 5,000 words.

THE RIVER NEWS.

(By W. F. LAMERIS, REPORTER.)

The Clyde is due this morning from Tennessee river.

Over 2,000,000 bushels of coal left Pittsburgh last week for the southern market.

The H. W. Buttorff departed for Clarksville at noon today with good business.

The Dick Fowler made a fresh start this morning for Cairo, after her regular Sunday visit.

The John K. Speed passed Louisville yesterday for New Orleans; is due here tomorrow.

Weather still cold and business on the wharf improving. No scarcity of water for any man's boat.

Pilot Will Smith has resigned on the Dick Fowler, and Mr. Ed Beard succeeded him this morning.

The Joe Fowler mail and express packet left for Evansville at 10 o'clock this morning with a very good trip of people, but light freight.

The Charleston brought a good trip out of Tennessee river yesterday principally lumber for Joppe. She leaves on return trip to tomorrow 5 p. m.

Charley Howard, brother of Captain Jim Howard, is second clerk on the John K. Speed. No man can play "second fiddle" better than Charley.

The new steel hull towboat Peter Sprague, which was launched at DuBouque several weeks since, is now frozen up in the ice there. This elegant towboat is the finest ever built, and the most powerful.

The citizens of New Orleans are making special efforts to have the finest and most elaborate Mardi Gras ever held in that city, and correspondingly the Cincinnati and New Orleans line of steamers are making better preparations than ever, to accommodate the Mardi Gras visitors traveling on their line of boats.

This morning the levee and wharf boats presented a most busy appearance. Everything was bustle and business, and there were few loungers about the boats.

There were several boats at the wharf, and all taking on and discharging freight. The water is so excellent for steamboating, and the men are making up for the recent stagnation caused by the extreme low water. There were at least one hundred deck hands working at the wharf this morning, and the business held out the greater part of the day.

FOUR CREMATED.

COLORED CHILDREN BURNED NEAR CAIRO, ILL.

Cairo, Ill., Jan. 6.—Four colored children were burned to death in a fire at Monday's, near here. A lad of sixteen lost his life trying to save others.

RETURNED FROM LIVINGSTON.

The following persons returned to the city on the packet yesterday from Birdsville, where the funeral of the late Mrs. Babb of Paducah was held several days ago: Mr. and Mrs. J. F. McCreery, Miss Mattie McCreery and John McCreery, Mr. John Babb and Miss Bonnie Babb, Ed Melton, Della Willett, Pauline Coyle and Sallie Coyle.

AN ATTRACTIVE BOOK.

Postmaster F. M. Fisher today received from the McKinley National Memorial association a numbered pocket subscription book, in which to record subscriptions for the McKinley National Memorial. It is hoped to have the books filled by January 29, the birthday of the late President.

THE SUBJECT CHANGED.

Bishop Thomas U. Dudley, of Louisville, who has many friends in Paducah has changed the subject of his lecture to be delivered in Louisville January 17 to "Gen. Robert E. Lee." His subject first chosen was "Success." It will be his first appearance in several years as a lecturer.

U. W. Lynch, Winchester, Ind., writes: "I owe the life of my boy to FOLEY'S HONEY AND TAR. He had membranous croup, and the first dose gave him relief. We continued its use and it soon brought him out of danger."

J. C. Gilbert.

MANY NEW CARS ORDERED.

Railroads throughout the country have already ordered 2,300 new passenger cars of various kinds—coaches, dining, sleeping, mail, express and baggage. This is the largest number of cars ever ordered at the beginning of a year. About 200,000 freight cars have been ordered.

Chas. Replough, Atwater, O., was in very bad shape. He says: "I suffered a great deal with my kidneys and was requested to try FOLEY'S KIDNEY CURE. I did so and in four days I was able to go to work again, now I am entirely well."

J. C. Gilbert.

SAD DEATH IN GRAVES.

Mayfield, Ky., Jan. 6.—Mrs. Beatrice Parish, wife of I. N. Parish, of Hickory Grove, died from pneumonia. She was daughter of Mr. Lucien Blacklock and had been married but eighteen months. Her husband is now critically ill of pneumonia.

NEXT CONFEDERATE REUNION.

New Orleans, Jan. 6.—Gen. John B. Gordon, commanding the United Confederate Veterans' order, has fixed Dallas as the location for the next reunion.

Observations

....at Random

The exclusive society of Metropolis, Ill., has taken steps to "freeze out" all who are not "exclusive" by organizing a dancing club and announcing that no one but the members may attend, and the young ladies invited must be from a select list, the parents of each young lady to be invited as spectators. A Metropolis paper explains that "the step is taken that no persons objectionable to the club or the young ladies shall force themselves where they are not wanted."

"I heard of a remarkable man the other day in the upper part of the state," said Mr. Joseph Parish, the Louisville insurance man yesterday. "He was on a train that I was riding on, and although married and a man with six children, he had never seen one of them!"

"Well, how in the h—l do you make that out?" quizzically demanded one of the gentlemen to whom he was talking. "If there's a man on earth with six children who hasn't seen any of them I'd like to get next. I have a few that I wish I'd never seen, and I may have a few more some day, so the experience of your man might come in handy."

"Oh, well, gentlemen," explained Mr. Parish. "The 'one' I mean, he had never seen was born while he was away from home; this last time."

The Sun stated several weeks ago that an anti-spitting crusade was going to be inaugurated here, and it is. The street cars have put up signs "Do not spit on the floor," and it is probable that the Civic Federation will take up the question and urge the council to pass an ordinance imposing a fine for violations of the laws of health and decency by expectorating in public places. The board of health might take up the question, but the board is a dead duck in the pit, and a Jonah. The only effectual way to stop the filthy habit is for the council to make it a punishable offense. Placards will not stop it unless there is a law to back them up. The placards may say "Don't spit on the floor," but men will do it just the same, and there will be no way to punish them without an anti-spitting ordinance. Let's have it without delay.

Paducah has certainly had some mean boys, and her quota has doubtless been contributed to the reform school, but a meaner trick than the ones perpetrated by youngsters for the past several weeks in riding away in other people's buggies would be impossible. It seems that the boys had been at it for weeks, until it had become a mania with them. They did it so often it soon ceased to impress them as being anything but right, and the trouble and annoyance they have occasioned people of both the city and the county is simply incalculable. It is difficult to determine what to do with boys of such inherent meanness. If they are whipped, it will not make them less demoralized, and if they are jailed it will be argued that they are young and not responsible, and it is wrong to wreck their lives by making felons of them at such an early age. But such meanness should be punished in some way. Paducah was for several years infested with a few small boys who got so they thought they could absolutely do anything and not be called to account for it. They stole, broke into houses, and committed crimes enough to entitle them to a life term in the penitentiary if successful terms had been imposed, but every time they were committed to jail they learned other kinds of meanness from the criminals there and when released by the juries which would never convict them would boldly walk the streets feeling like heroes, and with expert knowledge of how to commit crime, would inside a few days be in jail again. Finally they were placed in the reform school, but even that's full now. The question is, what are we to do with such boys?

The first offense of taking horses and buggies away, so far as is known, was when Mr. W. M. Jones, the real estate man, missed his buggy a few weeks ago. Learning several hours later that none of his family had it, he started out and found it in possession of two boys. One of them he seized and the youngster was so anxious to get away, he left his trousers with Mr. Jones, who has them yet. If these boys are caught, something ought to be done with them.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address F. J.
